

BASEES 2023 Child Policy

BASEES is committed to enabling members with young children who cannot make alternative arrangements to bring them to the conference.

At the BASEES conference children are allowed and breastfeeding is welcomed. A private room will also be available upon request for feeding or nursing women to express.

Attendees who are members of BASEES or are joining BASEES and who require assistance with childcare during the annual conference may apply for financial support. If your application is accepted, you will be provided a small grant towards the costs of childcare during BASEES 2023 to support your participation in the conference.

The content of presentations may sometimes not be suitable to children. If children are present in sessions, the Chair and parents/carers should liaise before the start of the session to discuss whether there is unsuitable content.

Children remain the responsibility of their parents or carers at all times. All children under the age of 18 would need to be supervised at all times by a parent or guardian. Please note that all under 11s must be within arm's reach of a parent, guardian or other designated adult of the parents' choice.

University of Glasgow Rules

We would ask all families to be aware that the University is a place of learning. As such we do ask that noise in public areas is kept to a minimum and children kept from playing in the courts or gardens.
